Sources and notes. U.S. Census Bureau, American Community Survey 5-year estimates (S0102 and B28005, 2020–2024; S0101, 2019–2023) for people or households 60+ unless noted. CDC PLACES 2025 release (2023 BRFSS model-based estimates) for all adults 18+ except tooth loss (65+); these show relative standing, not exact counts. 2026 Louisiana Statewide Needs Assessment (GOEA), responses Jul 30–Oct 23, 2026; percentages use only those who answered, and areas with fewer than 10 responses are not reported. PSA figures combine member parishes, weighted by population; a figure is shown only when every member parish has data. Need rank compares all PSAs with data (1 = highest need). Louisiana figures are calculated from parish data. * Census publishes these measures (table S0102) only for Louisiana's 34 larger parishes; the Louisiana figure combines those 34, and “—” means the measure is not published for a parish in this area. “Use caution” marks Census estimates with a large margin of error; these are not flagged.

Parishes in this planning and service area

Key figures for each parish, with the Louisiana figure for comparison. Cells marked ✓ are at least 10% worse than the state; “—” means Census does not publish that measure for the parish.
